

HOOK PLATE 3.8

1.1kN minimum uplift resistance per screw and each Hook Plate can accommodate up to 12 Thermal tube fixings or up to 16 smaller fixings.

The connection to the Mounting Rail is made via a T Bolt into the Mounting Rail channels.

Thermal tubes are supplied where insulation is present. This prevents cold bridging.

Suitable for connecting to timber, steel or concrete roofing decks.

2.50kg/m²
Weight

Membrane, PVC & bitumen (felt)
Suitable roof covering

1°-60°
Suitable roof pitch

Aluminium, stainless & galvanised steel
